Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 2, 5-9 and 11-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Holman, US Patent No. 5,522,476 in view of Smith, US Patent No. 3,135,213.

Holman discloses in Figs 1-3, a fluid pump mounted within a transmission reservoir comprising a pump housing; a pump element; a pumping chamber having an intake port and an exit port which are oriented in a substantially coplanar relationship; a plate member 70 adjacent to the pump 80 having an inlet and outlet 73, 74 defining the passages in fluid communication with the intake or exit port; at least one other intake port 61 or exit port 62 derived from porting configured in a surface adjacent to the plate member and not integral with the plate member; but does not disclose said pump element operatively connected to an electric motor wherein said motor is disposed in said pump housing.

However, Smith teaches in the Figure a submersible motor pump comprising, *inter alia*, a pump element operatively connected to an electric motor; said motor disposed within a pump housing.

Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the apparatus of Holman in view of the teachings of Smith to

connect said pump element to an electric motor so as to eliminate the need to connect said pump element to a driven shaft or gear of the transmission and provide operation of said pump when said transmission is not operated.

Response to Arguments

3. Applicant's arguments with respect to claims 1-9 and 11-22 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
